# To Our Community Partners

Belle Fourche Development Corp. held a strategic plan workshop in October that included the board of directors along with key community leaders and public officials from city, county and the public-school system. A document was produced by the participants with growing Belle Fourche for the next three years as its core objective. The full board of directors approved the 2020-2022 Strategic Plan at the December 2019 board of directors meeting.

The goals will be tracked monthly by the committees taking the leadership to develop and implement and give quarterly updates to the full board of directors.

The six areas of emphasis for these goals include:

The continued sales and marketing for the Belle Fourche Industrial and Rail Park; strengthen and develop the housing for Belle Fourche; further develop the tech institute and public school partnership in Belle Fourche and the northern hills region; new business attraction in several key sectors, large and small; develop long range sustainability plan for the organization; continue the community engagement and leadership development for our community.

Thanks to the leadership of the organization over the past 8 years, the group was able to see the goals that had been accomplished that laid the groundwork for the progression into the next decade and beyond.
